GENERAL NEWS.

BY TELEGRAPH TO THE OREGONIAN.

The Trouble Over.

COLUMBUS, Ohio, May 10.—Telegrams received here to-night from the Wayne county coal mines, say that all is quiet and that the Wooster military company has been ordered home.

Railroad Accident.

St. Louis, May 10.—The Texas express train on the St. Louis, Iron Mountain & Southern railroad, when 1½ miles this side of Bismarck and about 70 miles from St. Louis, at 3:40 this morning, ran into a washout caused by the storm last night. The engine was wrecked and the engineer, Charles McPherson, and fireman, Nicholas A. Stoors, were instantly killed. The baggage and express and second class passenger cars were ditched and turned over. Other cars remained on the track. A. H Hurley, of Indianapolis, T. E. Gonoher, of Jackson, Michigan, Joseph Palete, of Blackwell, Missouri, passengers, and a tramp named Ed. Walsh, who was stealing a ride, were slightly injured.

Fire.

PITTSBURG, May 10.—Keefer, Steifel & Co's tannery, Welleck's tannery and 28 buildings were burned to-night. Twenty families are rendered homeless; loss $125,000.

Disastrous Fire near Bradford, Pa.

BRADFORD, Pa., May 10.—This afternoon, by a gas explosion in a stove in the house of Justice Cline at Rixford, ten miles southwest of Bradford, the building was set on fire. All the adjoining buildings being light frame structures, the fire spread rapidly, and before its fury was spent 80 buildings were laid in ashes. The list embraces the principal hotels, stores and business places, including the Kendall and Eldred Railroad depot. The fire also burned the pump station of the United Pipe lines. A tank containing 7000 barrels of oil was burned, and an iron tank containing 25,000 barrels of oil is now in flames. A short distance further down the valley are located one other 25,000 barrel tank owned by the Union Pipe lines, and two others of similar dimensions belonging to the Tidewater Pipe line. These three tanks are all full, and it is thought cannot escape destruction. A large force of men are building dams to check the burning oil from running down the valley should the tank now on fire boil over. In and around Rixford forty derricks were also consumed. It is impossible to estimate the loss. At present several wood fires are reported, but no serious damages have yet resulted.

LATER.—One 90,000 barrel iron tank of McLeod & Madison and the 25,000 barrel iron tanks of the United Pipe lines at Rexford are still burning furiously. One tank boiled over and set a second 25,000 iron tank of the United lines in flames. There are two other tanks of similar dimensions belonging to the Tide Water Pipe Line Company a short distance further down the valley which cannot escape destruction. The heat is so intense that workmen are prevented from digging trenches or building dams. No other property in the immediate vicinity is burning except the tanks, and unless high winds prevail, the flames can be confined to the oil tanks. The loss on oil is borne by a general average assessment on all patrons of the pipe lines. No further property was destroyed in Rexford besides the 80 buildings reported.

Fire at Danville, Va.—Two Men Burned to Death.

DANVILLE, Va., May 10.—A wooden building, formerly the grange warehouse, recently rented to J. B. Pace Richmond for the storage of leaf tobacco, was burned this morning, also a wooden building belonging to J. S. Winsted, of Greensboro, N. C., occupied by Murphy & Co., grocers and a liquor store house. Sam Croxton, sleeping in the warehouse building, perished. John Does, a fireman, in attempting Croxton's rescue, was burned dead. Pace's loss is 220,000 pounds leaf tobacco; S. R. Hondett & Co., and J. S. Robertson & Co., lose smaller lots. The fire was an incendiary.

Steamer Ashore.

CAPE HENRY, May 10.—An English steamer is ashore five miles north of Smith's Island.

Bishop Simpson Preaches to 8000 Persons.

CINCINNATI, May 10.—Delegates to the general conference again occupied nearly all pulpits in city and suburbs yesterday. Bishop Simpson, at 4 P. M., preached at the Music hall to an audience of 8000 people. Hundreds were turned away unable to get in. His theme was "Growth and Ultimate Triumph of Christianity." As he showed the decline of all other systems and their inadequacy to the wants of man, he so carried the sympathy of his hearers, that amens were mingled with spontaneous applause. The entire congregation joined in the singing, which was led by two cornets and accompanied by the great organ. The effect was grand. The audience having applauded the sermon, showed like approval to a recitative and aria by Mrs. Dexter.

John not Wanted.

NEW YORK, May 10.—The United Christian Brethren have recently purchased all the houses from No. 24 to 28, Mott street, inclusive, and one building around the corner in Pell street, from which the Chinese have been evicted. The new owners have executed new leases, in which a condition is inserted forbidding the subletting of any part of the buildings to Chinamen or negroes. It is not probable that the anti Chinese feeling will spread among other property-owners in this neighborhood.

Still More Immigrants.

NEW YORK, May 10.—4657 immigrants are in Castle Garden to-day, 2139 of whom arrived this morning in three steamships.

A Fatal Row.

St. Louis, May 10.—Thos. Horne, a school teacher, and John D. Taylor, between whom there existed bad blood, met at Arion Rock, Saline county, Saturday. Both immediately drew revolvers, and at the third shot, by Horne, Taylor fell dead.

A Profitable Railroad.

CHICAGO, May 4.—William Vanderbilt, president of the Lake Shore and Michigan Southern railroad, in the annual report for 1879, which will be submitted at the stockholders' meeting to-morrow, at Cleveland, shows the gross earnings of the company to be $15,271,492; net earnings, $6,336,968; increase in net earnings, $843,802. The net earnings are the largest in the history of the road.

The Ohio Delegation.

WASHINGTON, April 29.—Friends of Senator Blaine have the following information: "A private dispatch from Ohio to-day says: 'Blaine has nine delegates on first ballot, sixteen on second and is either the first or second choice of the rest.'" Other dispatches substantially confirm this report. The delegation is intensely and almost unanimously anti-Grant and anti-third term."

Ammen's Nicaraguan Scheme.

WASHINGTON, May 10.—Admiral Ammen is still trying to organize his Nicaraguan canal company. He has received important concessions from the Nicaraguan government which it is expected will be confirmed by the national congress to meet a few days hence. Democrats of Washington county have nominated W. H. H. Myers, Ira Purdin and J. C. Wethered for representatives. No senator nomination has yet been made.

FOREIGN NEWS.

Continued Distress in Ireland.

DUBLIN, May 10.—A deputation of the Mansion house committee waited on Forster, chief secretary for Ireland, Saturday, to call his attention to the continued distress in Ireland. Lord Mayor Gray said that distress was not likely to be mitigated before the end of July, and as the committee had no reason to hope that their resources would suffice until that time, they left the matter in the hands of the government. Gray read telegrams from Clelden, Galway county, stating that if immediate relief was not given people would die by scores. Forster replied that the government fully recognized the extent of the distress and added, "we are doing our utmost to alleviate it by means of loans to landlords." Subsequently a deputation from the Canadian committee asked Forster to urge upon the government the necessity of directing the lords of the treasury to advance funds for the construction of fishery piers, etc. Forster said that they had made a strong case and he would lay it before the government.

Another Strike Threatened.

Disastrous Storms.

LONDON, May 10.—A Pesth correspondent telegraphs: A hail storm has devastated the greater part of West Hungary. Almost all the windows and roofs of houses in towns and villages are destroyed, and vines, fruit trees and green corn crushed to the earth.

The Hamburg Question.

BERLIN, May 10.—Bismarck's speech in the reichstag Saturday, was applauded by the right and emphatically hissed by the left. A commission will probably be appointed to trace a new boundary line, which will include Altona with in the customs frontier, but which will leave St. Pauls, or a quarter part thereof, in the enjoyment of the free port privileges appertaining to Hamburg.

That Troublesome Wretch.

A Berlin dispatch says that the assassin of Col. Comeroff will not be executed. The czar in reply to the sultan did not object to a commutation of the sentence to imprisonment for life, as his execution might provoke rebellion.

Bismarck and the Vatican again.

A Rome correspondent telegraphs: The project which Bismarck intends to present in the chamber for taking discretionary powers for the application of the May laws has been communicated to the vatican. The project is not entirely satisfactory to the vatican, since the powers granted might be so used as to be worse for the church than the May laws themselves. Nevertheless it is deemed advisable to acquiesce.

Belgium and the Jesuits.

BRUSSELS, May 10.—In the chamber of representatives the whole bill prolonging the operation of the law relating to the treatment of foreigners in Belgium was adopted. The law will be applied to Jesuits from France as it was to the religious bodies expelled from Germany.

The Berlin Treaty.

Russia's Reply.

ST. PETERSBURG, May 10.—The *Bereg* says that it has reason to believe that Russia's answer to England's note regarding the fulfillment of the treaty of Berlin suggests that the powers are agreed on the subject of common action.

Russia's Peaceful Policy.

ST. PETERSBURG, May 10.—The *Agence Russe* denies that the Russian government has addressed a circular to its representatives abroad dwelling on the peaceful tendency of Russian policy.

Gen. Roberts' Movements.

Awkward for Fawcett.

Edward Stanhope, under secretary for India, writes to the *Standard*, denying that the late government had received a telegram concerning the Indian deficit, on the morning after the debate on Fawcett's motion in parliament in favor of England's contributing a portion of the Afghan war expenses. He seriously deprecates Fawcett's action in making the statement before ascertaining the fact. Fawcett writes to the *Standard*, recalling his statement, and expressing regret that he had been misinformed.

The Closing Act.

LONDON, May 10.—Batanto, on Cameroon's river, on the west coast of Africa, was bombarded and burned by the British on account of the capture and ill treatment of British subjects by natives. The Basutos are surrendering their arms. The colonists believe this to be the closing act of the troubles in South Africa.

The Chinese Seat of Government.

Russia is reported to have consulted European governments and the United States upon the advisability of transferring the embassy from Peking to Shanghai on account of the excitement at Peking.

Fatal Explosion.

ROME, N. Y., May 10.—This morning a boiler in the Merchants' iron mill burst, killing four men and injuring five others—one fatally—all employes. Only part of the employes were on duty.

Trouble over the Levant Herald Case.

CONSTANTINOPLE, May 10.—The British embassy here and the porte are exchanging angry notes relative to the suppression of the *Levant Herald* and Whittaker's (the editor's) subsequent sentence to seventeen months' imprisonment for publishing a new number of his journal. The embassy maintains that the decree against Whittaker is informal and cannot be recognized and that Whittaker can only be condemned after trial. The porte is indisposed to permit a trial, because Whittaker's contumacious language against the grand vizier would by a trial gain greater publicity. The porte insists upon its right to inflict summary punishment. Whittaker meanwhile has left the city, and the embassy refuses to countenance or assist in the execution of the decree against him.

Turkey's Poverty.

The porte has not yet succeeded in arranging the payment of salaries, and distress among officers is very great. Captain Pasha has been mobbed by women whose husbands are away in service. They have threatened to throw their children under his feet.

A Declaration of Independence.

VIENNA, May 10.—A dispatch says the Albanians have [illegible] a proclamation declaring their independence.

The Albanian Declaration.

BERLIN, May 10.—The first number of a new [illegible] published in the Albanian language at Scutari contains a declaration of independence signed by Ali Pasha, and secular and ecclesiastical chiefs of Mohamedan and Roman Catholic tribes. It vindicates the inalienable right of Albanians to autonomy, does away with the rule of Padishah, and dismisses all Turkish civil and military officers until they are reappointed by the league. Turkish troops have joined the league. All those not favorable to the new regime have been ordered to leave the country.

The new drama entitled "Home, Sweet Home," written by Joaquin Miller, which has been presented at Providence, R. I., is reported a failure.

THE "SPONTANEOUS" GRANT MOVEMENT.

ROW IN CONVENTION AT CHICAGO.

The Grant Boomers Attempt to Run Things, but being Beaten, they Bolt—Unpleasantness Generally.

[SPECIAL DISPATCH TO THE OREGONIAN.]

CHICAGO, May 10.—The county delegate convention this morning resulted in several knockdowns on account of the Grant men claiming the right to dictate respecting the nomination of chairman and the police were obliged to interfere. The anti-third term delegates then organized the convention and the Grant men immediately bolted. It is regarded as significant that the Grant men consider his chances in Illinois desperate. They will send a delegation to Springfield to contest. It is understood that the Grant managers sent word to the Blaine-Washburne coalition this morning that unless they were permitted a share of the delegates to Springfield, the state convention would instruct for Grant. Word was returned that such action could not be taken because Grant would only have a minority in the state convention.

A Detailed Account of the Affair.

Intense excitement prevails in the city over the political complication growing out of the republican primary elections in Cook county. On Saturday the contest for the control of the county convention was the hardest ever had in this city, and has created a good deal of bad blood. The *Inter-Ocean* charges that frauds were committed by the Washburne and Blaine men at several polls and, on the other hand the *Tribune* alleges fraud in behalf of Grant.

When the county convention met at Farwell hall to-day the passions of the different partisans had been so wrought up that a split took place, and two conventions are now in session, the result of which is that two sets of delegates will be sent to Springfield. Each of the three morning papers, the *Times*, *Tribune* and *Inter-Ocean*, have different figures as to the division of the delegates elected to the county convention, but agree that the combined vote for Washburne and Blaine is greater than that for Grant. The *Inter-Ocean* claims 84 of 178, and the *Times* concedes 67 out of 178.

It is allowed that before the convention at Farwell hall opened a committee from the Grant side consisting of Leonard, Swett and R. S. Tuthill, waited on Hon. C. B Farwell, leader of the Blaine and Washburne forces, and asked that a pro rata representation to the state convention be conceded to the Grant side, and that Farwell replied that he had never heard of the Grant people conceding anything at any convention, and that as the anti Grant side was in the majority he would not consent to a division of delegates.

The chairman of the county committee, H. A. Singer, was known to be a Grant man, and when he called the convention to order, without waiting for him to urge any suggestion, a member arose and nominated Elliott Anthony, a Washburne man, for chairman. Before Singer could say anything there were loud cries from all parts of the house for Anthony to take the chair, and amid great uproar he advanced to the stand and Singer was hustled off the stage. Several rushed to the stage and for a moment it looked as if there would be a general fight. Finally some kind of order was restored and most of the Grant delegates withdrew from the hall and proceeded to the Palmer House and there organized a second convention. It is claimed by the Grant men that Singer only wished to ask if it was customary for the committeemen to select a temporary chairman, when he was laid hold of violently, and driven from the stage. On the other hand, it is said, in excuse, that it was understood to be Singer's intention to put a person friendly to the minority in the chair, but be this as it may it is generally considered that the majority were overhasty and arbitrary. They had control and could have voted into the chair any one they wanted. Grant's friends claim that nothing was left them but to withdraw and organize separately. The 15th ward delegates, headed by F. C Klakke, a Grant man, remained with the Farwell Hall convention. The Blaine-Washburne contesting delegation of the 15th ward was admitted to seats in the convention, but no other changes were made. This convention then proceeded to appoint a committee to apportion delegates to the state convention to be held on the 19th inst., which reported to give Washburne 58 delegates and Blaine 34. The Palmer House convention was addressed by Messrs. Storrs, Swett, Dan, Munn, Clough and others, after which it was decided to send a solid Grant delegation to Springfield. These two delegations were appointed during the afternoon.

The N. P. R. R.

Terms of a Bill for Extension of Time Introduced into the House.

[SPECIAL DISPATCH TO THE OREGONIAN.]

WASHINGTON, May 10.—A bill introduced to-day by Representative Newberry granting an extension of six years to the Northern Pacific Railroad contains a proviso that actual settlers upon agricultural lands embraced within the limits of the land grants of the road shall have the privilege of purchasing a quarter section of land at $2 50 acre, provided that it shall not apply to lands already earned by the company. The bill further provides that when the company shall mortgage or sell any of its lands except for the purpose of aiding in the construction of its roads, said lands shall be subject to taxation in the states or territories on which they may be located. It requires the company to make returns every six months to the secretary of the interior of all such sales of lands; also to make returns of the actual cost of construction whenever each twenty-five miles of road are completed, and provides that when the end of the line is finished all lands remaining unsold over and above the amount required to be sold to aid in construction of the road shall revert to the government; and, further, that the act shall not take effect unless the company, within six months after its passage, shall file its acceptance of the conditions with the secretary of the interior.

THE CAPE FLATTERY COLLISION.

The "Rainier's" Account of the Disaster—Both Vessels Seriously Damaged.

[SPECIAL DISPATCH TO THE OREGONIAN.]

PORT TOWNSEND, May 8.—At about 10 o'clock last evening the bark *Rainier* came in without assistance and anchored opposite the town. She was carrying a cargo of lumber to San Pedro when the collision occurred Friday morning, the 7th and was about eight miles outside, having passed the cape about 8 o'clock A. M. The weather was clear, with light squalls, the wind being about SSW. At about 9 the *C. L. Taylor* passed to the windward of the *Rainier*, the vessels being on opposite tacks, and soon after the *Taylor* tacked, which left both vessels on the port tacks. This time the *Rainier* kept so close to the wind that her sails were caught aback, and Capt. Bergman of the *Taylor*, who was then engaged in trimming sails seeing this, undertook to keep clear of her by sailing around her stern to the leeward, and in doing so struck the *Rainier* on the port side in the fore chains, carrying away the foretop mast down with the masthead of the main top gallant mast, upper maintop sail yard, the latter being broken in two. The head gear was uninjured, excepting the jib stays. The deck load of lumber evidently protected the *Rainier* considerably, but her side was injured sufficiently to cause a leakage when she rolls. A sailor named Willy was on the foretop sail yard when the collision took place, and fell, with the yard below the lower yard, but in falling caught the rigging, thus saving himself, but sustaining but slight injuries. The *Taylor* has probably been damaged to the extent of two or three thousand dollars. In addition to the injuries reported yesterday as sustained by the *Taylor*, she lost her foretop gallant mast and another, leaving only her foreyard and lower foretop sail yard untouched.

The *Rainier* leaves to-day for Port Gamble in tow of the tug *Goliah*, while the *Tacoma* takes the *Taylor* to Seattle.

Matrimonial.

Capt. Jones, of the ship *Mathilda*, was yesterday united in marriage to Miss Lulu McNatt, of Port Ludlow.

King's valley correspondence: The republican convention did the very best thing it could do in nominating M. C. George for congress. He will receive the hearty support of every republican in Benton county.

BY STATE TELEGRAPH.

Another Murder in Umatilla County.

[SPECIAL DISPATCH TO THE OREGONIAN.]

UMATILLA, May 10.—Mr. T. D. French, a sheep raiser living near Heppner, was shot through the head by Murphy, a sheep herder, on the evening of the 7th. There was no cause for the deed as far as known. Parties are scouring the country for the murderer, who has fled. The description of the murderer is as follows: About five feet seven inches high; weighs 160 pounds; brown hair and whiskers; one eye out. French was not dead at 11 P. M., but cannot live long.

Detailed Account of the Murder.

UMATILLA, May 10.—S. S. Snyder owns a band of sheep, and they are being herded on the hills about two miles south of this place. He employs a herder named Murphy, who is camped a short distance above Mr. T. D. French's field. Yesterday Mr. Snyder was informed that the herder was allowing the sheep upon his (French's) premises and into his grain field, and requested that they be kept away. Mr. Snyder employed young Anderson to go and see Murphy about it. Accordingly Anderson went up to see him yesterday evening. Murphy had been drinking and seemed enraged when Anderson told his business. He said to Anderson, "Did French tell Snyder that the sheep were in his field?" Anderson answered in the affirmative, and Murphy replied, "He's a d—d liar; I'll go and kill him," at the same time going into the tent and getting a 44-caliber Remington revolver. Anderson asked him if he would be so cowardly an act as to kill a poor man with a large family without the least provocation? Murphy replied, "That would be cowardly." Just then Mr. French came walking up, whistling. When he was near, Murphy said to him: "Did you tell Snyder that his sheep were in your field?" French replied, "I did." Murphy retorted angrily, at the same time grasping him by the coat collar with his left hand, and with his right drawing his pistol and placing it nearly against his temple, fired. As he drew the pistol French said "O, don't!" and fell forward almost into the murderer's arms. Murphy, after walking around and surveying his victim, turned to Anderson, who stood near, grasped his arm and said, "Now, d—n you, don't you tell anyone but Snyder!" Anderson was terribly frightened, and ran with all possible speed, and was nearly exhausted when he reached town. A crowd of citizens and a physician immediately repaired to the spot. They found Mr. French standing up and ascertained that he had walked some distance from where he fell. He was talking and waving his hands, perfectly unconscious of what he was doing. It was a horrible sight—his eyes almost burst from the sockets and covered with dirt and blood, his beard and hair stiff with congealed blood, and blood was streaming from his nose and ears and covering his clothes. The ball entered the left temple, and ranging downward, came out just below the right cheekbone. Mr. French was alive this morning, but there is no hope of his recovery. The murderer thus far has escaped arrest. A number of citizens have started out to hunt him to-day. Mr. French was a good, peaceable, pious, law-abiding citizen, never quarreled with any one, and the chances are that Murphy will be handled severely if captured by the citizens of Heppner.

BRITISH COLUMBIA.

A Singular Discovery.

VICTORIA, May 9.—The *Colonist* charges that the government, in conveying to the dominion a twenty-mile belt on each side of the railway, have actually included the Skagit river mines which lie in American territory, and about one hundred miles of farming lands, together with two or three scores of improved farms that lie on the southern side of the border. It says that the province will be required to annex that piece of real estate or give the dominion land elsewhere in the province.

Victoria Items.

The provincial legislature was prorogued yesterday.

DEMOCRATIC SENTIMENT.

TO THE EDITOR OF THE OREGONIAN:

A somewhat recent investigation into the the sentiment of the democratic members of the Portland bar shows that more than half of them will [illegible] Kelly [illegible] Penn and Pendleton. [illegible] that was everywhere [illegible] will be [illegible]. NOSER

JUNIUS BRUTUS AFTER THE JUDGES.

The Issue Stated.

To Judges Kelly and Prim—SIRS: You have made an issue in this campaign of the highest importance. When, by citing me to appear, you assumed you had the right to disbar me for publishing certain reviews of your decisions, you asserted an exemption from criticism in the press without parallel in modern history, and well calculated to excite the gravest apprehension in the minds of the people. It may be that in making this issue you did it blunderingly, and were the mere instruments of a blind chance; for I know of no instance in the sand-barren of your careers when you were not mere instruments. Yet it is fair to assume that with three months of deliberation after the filing of the affidavit you surely understood that the only issue triable on that proceeding is whether I wrote the reviews; their truth, as every tyro knows (or whether they were judicial robberies, as Frank Pixley joins me in saying they were) you could not try nor permit to be tried any more than you would if I or any citizen were to charge you with bribery in open court. If the reviews in the newspapers constitute a contempt all each offer to prove their truth would be a fresh contempt. Neither did the law require you as a matter of course to cite me to answer upon the filing of the affidavit of the attorneys who had profited by one of the decisions in which you had robbed a citizen of San Francisco. On the contrary, it forbade you to do so, except where the case made was one in which you had the power to disbar me; yea, even if it was your duty to have dismissed this proceeding and declared to the people of Oregon that no public officer in a free country can be exempt from criticism in the press. Therefore when you cited me to appear at the July term to be disbarred, it was your own voluntary and deliberate act, done with a full knowledge of its meaning; and, by that act you solemnly declared that your judicial conduct and your decisions made and filed in the office of the secretary of state, were exempt from adverse criticism in the public press by members of the bar. Which is equal to an assertion that you are exempt from all criticism, because none but lawyers can effectually point out your judicial crimes. And if after that deliberate citation you should be elected and sit at the July term and should fail to disbar me, on my avowal of the authorship, you would falsify your whole conduct and write yourselves down as asses of the first quality. It is immaterial whether you have disbarred me or whether you only intend to do so in July. It is the assertion of that despotic power to suppress the freedom of the press which constitutes the enormity of your conduct.

Why, sirs, our forefathers fought the revolution upon a preamble in a British repealing statute which asserted a right not half so dangerous as the one you are now attempting to exercise. Whether I *have been* or *shall* be robbed of my profession by you is, it is true, of the greatest importance to me; for outside of four years in the confederate army I have devoted the bloom and flower of my youth to the acquisition of its learning. Still, to the people it is, perchance, of little moment what shall become of me. The waves of time would easily close over my memory and the world would not be conscious of a wound; yet the effect of the triumph of such a despotic power upon the rights of each individual citizen would be of the most fatal kind, for, when you successfully assert the right to rob suitors at your own caprice and to suppress all criticism and exposure of your crimes you attack the most sacred rights and strike at the basis of free government.—On that issue it is no longer my fight—it is the people's fight. It is not my grievance, but that of every citizen.

If you may set aside at your pleasure and without exposure the laws made by the people as the measure of their rights, wherein, I would inquire, does this differ from the most absolute despotism? I have heretofore conceived it contrary to the genius of our institutions that any ruler, however high, should be exempt from criticism for his public acts. I had conceived that our constitution guaranteed the freedom of the press for this very purpose; and I have supposed the bar commissioned by the people to stand between them and the tyranny of the courts. It may be due, sirs, to a defect in my education that I entertained such opinions; but if *you* are correct in your claim, then the bar who have ever stood foremost in the defense of civil liberty are merely your creatures, and are reduced to the abject position of sycophants and slaves, who brighten at your smile and droop at your frown. If you are right there is no protection in the laws for the people, and their property is subject to your lordly caprice or sovereign mercy.

This, then, is the issue: for your conduct admits your guilt and that you have no defence to offer to the people for those robberies whose exposure had caused a denunciation in the press from the Atlantic to the Pacific that was ringing in your ears when you cited me to answer for a contempt of court. You consequently assert that if the people will elect you on that issue, to this sovereign judicial power, you will make such an example of me that no attorney will ever again dare to expose your iniquities. In the discussion of this extraordinary right asserted by you, I shall, between now and the first Monday in June, write you other letters giving you the result of my investigations. And, by your leave, I will ask all the free press to submit them to the people.

Very respectfully, SIDNEY DELL.

RAILROAD MEETING AT KING'S VALLEY.

KING'S VALLEY, Benton Co., May 8.

TO THE EDITOR OF THE OREGONIAN:

A very interesting meeting was held at this place on Monday, the 3d inst., to take into consideration the proposition of the Oregon Railway Co., limited, to extend the line of road to King's valley. Mr. R. R. McKenzie was present to represent the company. He made a statement of the proposition from the company to the people of King's valley and also presented the written guarantee of the company that the road would connect King's valley with Portland before the 1st of October, 1880. The people are so well pleased with the liberal offer that $3000 were subscribed at once. The meeting adjourned with everybody feeling that the amount asked to be subscribed would be easily raised. Since then, at a few days' canvassing, the amount was increased to over $5000, and I have no doubt that Mr. McKenzie will return to Portland in a few days with two-thirds of the amount asked for subscribed. The citizens here feel a great interest in this matter, and are determined that as far as they are concerned the road shall be built.

BY MAIL AND TELEGRAPH

A Warning to Don Cameron.

NEW YORK, May 3.—A *Herald* Washington special says: If Cameron does not, within the next two weeks, come to some sort of terms with the delegations which will put him in harmony with the voters of his state, the anti third-term movement there will turn itself into an anti-Cameron movement, and when it comes to that point the young senator will have made a mess of his affairs, for there is no doubt that Pennsylvania is ripe for a revolt against the Cameron dynasty, and that there are politicians in the state to head such a revolt whenever they see that it promises success. Young Cameron does not rule his state through the devotion of his followers, but in part through the [illegible] of his father's rule, which is falling, and largely through fear, which has made him more enemies than friends.

Demonstration for Blaine.

ALBANY, May 5.—It is said there is a plan for a big Blaine boom throughout the state, and there is every probability that there will be a general and official declaration of Blaine sentiment in the legislature within a few days. Blaine men in Albany profess to be jubilant over Senator Conkling's recent interview, calling it a despairing attempt to bolster up a losing cause.

Anti-Third Termers.

NEW YORK, May 3.—The various district clubs of the republican central anti-third term campaign club held primary elections tonight in the different assembly districts throughout the city, and elected three delegates and three alternates each to the republican national convention at Chicago. Among the delegates elected are General Francis C. Barlow, Colonel John Allen, Professor Felix Adler, Thurlow Weed, Sheridan Shook and A. J. Dittenhoefer.

Press Warfare on Presidential Candidates.

NEW YORK, May 5.—The war against the republican candidates for the presidency grows fiercer. The *Times*, which supports Grant, fights Blaine and Sherman as strongly as though they were democrats. To-day that paper has a long and detailed account of the attempt to get hold of custom house contracts by Secretary Sherman's brother-in-law, while the latter was attempting to "reform" the very custom house (intimating plainly that Secretary Sherman himself was an interested party.) The *Times* says, speaking of Colonel Moulton and his relative and patron: This brief chapter of semi-official history may suggest that a man's worst foes are those of his own household, and that to a presidential aspirant, an intriguing brother-in-law may prove quite as awkward an incumbrance as a wicked nephew. The *Tribune* continues its warfare on the third term and everybody opposed to Blaine. The *Herald*, of course, still wants anybody but the ex-president.

Wrath of the Democrats.

CHICAGO, May 4.—The *Journal's* Washington special says: The democrats are very indignant over the president's veto, and some of the leaders assert boldly that they will force him to back down yet, and that not a dollar will be given officials until he does. The general opinion is that the veto message will only prolong the session and will force the democrats into a political discussion.

Wheeler's Ambition.

NEW YORK, May 3.—The *Tribune* says: Vice President Wheeler declines to allow the use of his name as a candidate for congress, with a view to the possibility of his being made the speaker of the next house; and it is announced that in case the legislature of 1881 is republican, he will be a candidate for U. S. senator.

Sarcastic on Sheridan.

NEW YORK, May 5.—The *World* says: General Sheridan stated at Gen. Warren's court of inquiry on Governor's Island yesterday that on the Oregon frontier he had marched infantry at the rate of five miles per hour for twelve continuous hours. This was by way of showing that Warren, at the battle of Five Forks, fell short of doing his duty in marching six miles in two hours over exceedingly muddy roads on a dark night. The *World* thinks that the Oregon walk was a "go-as-you please" affair, and intimated that if Sheridan's ride were subjected to the same searching cross-examination that Sheridan's walk elicited yesterday, it would not rest on much better foundation.

Negotiating for Stewart's Bones.

NEW YORK, May 5.—It is stated that for six weeks Assistant District Attorney Herring has been in Ansonia, negotiating with parties who stole Stewart's body.

Why Bounties are Unpaid.

WASHINGTON, May 5.—Secretary Sherman, answering a house resolution, says: Back pay and bounties are not paid, because congress has failed to accept the official estimates of the amounts required to pay such claims.

A Sorry Boom.

[From the Chicago Tribune.]

The third term boom was started Feb. 5th by a majority of twenty in a packed midwinter convention at Harrisburg, Pa. From that day to this *not one* sure republican state —*not one*, Messieurs—has given aid, comfort, or countenance to the third term doctrine.

TUESDAY MORNING, MAY 11, 1880.

NOT HURT BY MODESTY.

Missouri is one of those states which have instructed their delegates to the Chicago convention for Grant, but which will throw from 75,000 to 100,000 majority each for any democratic candidate who may be nominated. A group of states, sure for something like a million majority against Grant in the election, are the main reliance for forcing his nomination upon those states which must be the sole dependence for the votes to elect any republican candidate; and Missouri is the heaviest of the states of this solid democratic group. That is, Missouri will have more strength in the Chicago convention than any other one of them, and will throw the biggest democratic majority. The boss of the great machine in Missouri is one Chancey I. Filley, who was postmaster at St. Louis under the Grant regime, but who was removed by President Hayes for his offensive activity and dictatorial ways in political management. Filley is anxious for the restoration, of course. The little there is of the republican party in Missouri he carries in his pocket; but in a national convention it is a force nearly twice as large as that of California and Oregon combined. It is needless to say that the Missouri boss is not restrained by modesty. He could not be a boss if he yielded to any such weakness. So, in the Missouri convention he rose and said: "I believe the time has come when we should claim our rights as republicans and show that we have something to say as to who should be our standard bearer. We have fought, bled and died in Missouri, and we have the right to speak, and it seems to me that we propose to have something to say." Should speeches like this be made at Chicago, there will be plenty of interrogations as to how many electoral votes this modest man who "proposes to have something to say," are speaking for and can promise the candidate. No man will be accepted as a candidate if his nomination is secured chiefly by the votes of delegates who, while "claiming their rights," nevertheless come from states which notoriously represent no republican electoral votes. This would be simply an insupportable fraud. One thing in the statement of the Missouri boss is true, namely, that the republican party has "fought, bled and died" in that state; but he should have gone far enough to explain that its death took place under Grant's presidency. Missouri in 1864 gave Lincoln over 40,000 majority. In 1868 it gave Grant above 21,000. But in 1872 it threw 32,238 against him, though Greeley was the opposing candidate. That is, under Grant's administration, the republican party "died" in Missouri, and for it there is no resurrection.

INTERNATIONAL FISH CONGRESS.

The international fish congress now in session at Berlin, Germany, has attracted the attention of all the most eminent pisciculturists in Europe and America. The exhibition made has never been excelled and "draws" immensely. Emperor William and the empress, the crown prince and large numbers of the nobility and scientists have visited it and expressed great gratification over its success. To Americans the fact will prove especially pleasing when it is known that the display made by the United States far surpasses that of any other nation. Professor Baird and the officials of the Smithsonian Institute are highly gratified over the cable dispatches they have received and which state that the exhibit made by our government elicits the highest praise from the pisciculturists of the world, both by its perfect arrangement and completeness of detail. The professor declares that his most sanguine anticipations are surpassed, and it is agreed by all that we have, in this instance, placed before the world an exhibition which does full credit to the great progress made of late in this branch of science. It seems that the portion of the grand hall devoted to the United States exhibit claims the almost exclusive attention of visitors. The money spent by the government in this instance will prove of still greater advantage to our own country since it will serve to create a larger interest among our people on a subject which may be said to be as yet in its infancy. In comparatively a few years our creeks, rivers and lakes will teem with fish of the best quality, the trout, bass, shad, salmon and other delicious members of the finny family, and there will be no scarcity of a food that is healthy and nourishing. We are glad to know that efforts of the fish commissioners in so many of our states in behalf of the propagation of fish are seconded so well by the people, and this encouraging fact assures us that the period cannot be far distant when the supply will be larger than the demand. Too little attention has however been as yet bestowed on the subject in our Pacific states, and especially in the Pacific northwest,—not indeed enough to show the world what we can do in the way of producing the best varieties of the most excellent fish. The streams and coasts of the Pacific northwest contain, in fact, the best fish to be found and in greatest numbers. The superiority of the fish taken from our large, pure and cold mountain streams over those from such rivers as the Potomac and Susquehanna has only to be noticed to obtain appreciation.

THE "SPONTANEOUS" CALL.

The last hope of the Grant men was Illinois, and Chicago was the last ditch of the last hope. Losing Chicago they have lost the Illinois convention, and losing the Illinois convention the hope is gone of being able to force Grant's nomination. In the county convention at Chicago yesterday the Grant bosses undertook to carry things in their usual lordly style; a row ensued; some broken heads was the result, and the Grant men retired chopfallen and discomfited from the scene. After being "licked," they "bolted." This is a sorrowful commentary on the theory that the movement for Grant is "a spontaneous uprising of the whole people." The country is hardly so "wild and solid for Grant" as some have reported. It is evident that the "strong man" was greatly needed in Chicago at yesterday's crisis. Now that the Grant boomers have reached the bolting stage, the business with them is pretty much over. They are the representatives of the machine, the sticklers for party regularity, and bolting with them is fatal. All their power comes from whipping-in, and when they cease to be whippers-in and become bolters, they go into political bankruptcy. But though Grant fails to get Illinois, he shows a great deal of strength in that state,—more, indeed, than in any other. This arises chiefly from state pride, as Grant is a citizen of Illinois, and a great appeal has been made by his partisans not to let his own state be carried against him. But it is clearly becoming impossible to nominate him against the rapidly increasing opposition developed in nearly all parts of our country. Let it be observed, however, that it is not opposition to the third term which constitutes the chief objection; it is Gen. Grant's notorious unfitness for civil administration and his conspicuous failure in it, as witnessed during his presidency, and especially during his last term.

One of the queer things in business is the propensity of many people to seek irregular mediums of advertising. Men often pay high prices to get their advertisements stuck in unusual places, under the impression that the novelty of the thing will turn it to account. But in the novelty of the thing is found the very reason why it will not be valuable. If people generally looked in these places there would be no novelty in them. The fact is few persons see and still fewer pay any attention to advertisements out of the regular channel. As the Cincinnati *Gazette*, one of the oldest and best journals in the country, notes, advertisements thrust into irregular and unbusiness-like places, impress the general mind that the concern is of a similar character. But an advertisement in a general newspaper of first-class standing, carries the impression that the advertiser has a standing in his own community, which he is not afraid to show to his neighbors, and that he does not shrink from competition with the best of them. If anyone is going to a place to buy, whether he be a trader or buying for his own use and has to seek dealers through advertisements, where will he look for them? To registers, almanacs, theater bill frames, in railway stations, occasional advertising sheets or circulars? On the contrary he looks to the most reputable newspaper of the place and he thinks advertising in these gives an insurance of the good standing of the advertiser and his business enterprise, and of the sufficiency of his stock.

There are those who are yet by no means reconciled to the use of the word "nation" as synonymous with "United States." Notwithstanding the signal failure of the effort to maintain the confederate doctrine, they are still unwilling to admit that we are anything more definite than a confederation of states. This manifested itself in a singular way in congress the other day. A writing desk, which had been the property of Thomas Jefferson, had been offered to congress. Mr. Crapo of Massachusetts, after drafting a resolution accepting it, showed the resolution to Mr. Tucker of Virginia, who was to second it. The resolution contained the words, "This precious relic is hereby accepted in the name of the nation." Mr. Tucker insisted that Mr. Crapo should strike out the word "nation" and in lieu thereof insert "United States." but the Massachusetts representative declined to do so. When the resolution was read in the senate, Mr. Beck of Kentucky excepted to the word "nation," but did not insist on his objection. Somehow the resolution, as printed in the *Congressional Record*, contained the words "United States" in lieu of "nation," and the next morning Mr. Crapo called attention to the fact, and desired that the *Record* be corrected. He appealed to the house journal to sustain his point, and it was found that he was right. It appeared, therefore, that the language had been changed at the instance of some Bourbon of the paleozoic age of politics in or about the senate, but no inquiry could elicit the facts.

Gen. Grant, some say, does not really expect the presidential nomination, and long ago would have written a letter declining it, had it not been for the importunity of his closest friends, who have a great political stake in the result and who wish to hold their strength together upon his name so that they may have some material to trade on when the time comes to rally around the winning candidate. This is very plausible and highly probable theory, as it seems scarcely probable that Gen. Grant, who has been twice nominated for the presidency without a dissenting voice in the conventions of his party, would now actually take the chances of a scramble in the convention for a doubtful result against an opposition in his party which controls nearly or quite all the states to which alone he could look for an election.

Nothing is more remarkable than the enormous increase of the internal traffic of the country. When we are told by a Philadelphia journal that the tonnage carried over the Pennsylvania Railroad, main line between Philadelphia and Pittsburg annually is fully as great as that of the foreign commerce of the republic, the statement naturally excites wonder and seems to be incredible. Yet this railway, between the two points named, is but a comparatively small part of the vast American railroad system, the trade of which is in all respects truly amazing.

The supreme court has cited Mr. Sidney Dell to appear at the coming July term and show cause why he should not be disbarred as an attorney. There is a good deal more prospect that Mr. Dell will be there at the time, so Col. Nesmith is reported as saying, than that the judges at whose instance he is cited to appear will be there to meet him.

From many sources we learn that Mr. George is making a good impression by his speeches throughout the state. There is encouraging prospect of his election.

CITY.

A Serious Matter.—It is the common practice of the telephone companies of this city to send little messenger boys at all hours of the day and night upon errands to houses of ill fame and other disreputable places thus exposing them to familiarity with the worst forms of vice. The effect of this constant intercourse upon children incapable of judgment cannot but be very bad. If this sort of communication is a necessary part of the messenger business of the companies persons may be found who cannot be harmed by its influence. If this hint is not taken by the telephone managers the moral power of the city should express itself and compel the outrage for such it is to be stopped.

Government Launch Chelan.—Gen Geo E Dandy has just returned from The Dalles at which place he spent the first part of last week inspecting the steam launch *Chelan* which was built at this port for the United States government and which is intended to transport stores and military equipments across Lake Chelan. The launch was found to be in good condition and was sent on her voyage without delay by Gen Dandy after he had subjected her to a thorough inspection. It is probable that the launch is by this time at Priest's Rapids.

Matrimonial.—We are in receipt of handsomely printed wedding cards from Mr and Mrs H Wallace Atwell of Sacramento Cal. The bride is Mrs Virginia Beecroft (sister-in-law of the late Commodore Francis Connor) who has been correspondent of various papers of California for some years. Her *nom de plume* is Vierge. The lady has visited this state several times and has written a number of complimentary letters concerning Oregon.

Large Train.—One of the largest freight trains which was ever pulled out of the depot of the Oregon and California Railroad left yesterday morning at 6:30. The train was composed of twenty seven loaded box cars and three flat cars loaded with iron. It took two powerful engines to get the train under headway but when the wheels were once set agoing it was found that one engine was sufficient to handle the whole lot.

Improving Front Street.—It is probable that the work of laying the Belgian block pavement on Front street from Ash to Madison will be commenced by the contractors next week. The contractors have 28 stone cutters now at work at the quarry and already have a large number of blocks out but wish to get supply enough ahead to keep right on and finish the job without waiting for material.

Estimate of Sidewalk.—W S Chapman city surveyor has furnished his estimate of the necessary sidewalks crosswalks etc to be laid in connection with the improvement of Front street from Ash to Madison which is to be laid with Belgian block. The estimate is as follows: Sidewalk 932 feet; new curbing, 150 feet; sidewalk relaid 125 feet; crosswalks 314 feet; iron gratings 10; aprons 10.

Held to Answer.—Sunday a man named J. Whitley was brought to the city jail charged with the larceny of a coat and pair of shoes from the New York Hotel and a pair of blankets from the Norton House. Yesterday afternoon he was brought up before Judge Stearns. He waived examination and was bound over to appear before the grand jury, with bonds fixed at $250 in each case.

Run Over.—A man named E W Asdmund was run over by the train between the Upper and Lower Cascades Sunday evening, and sustained very serious and perhaps fatal injuries. One leg was fractured, also an arm and his head severely cut. He was brought down on the boat yesterday, and conveyed to St Vincent Hospital. The result of his injuries cannot be determined.

Conference—Camp Meeting.—The seventh day Adventists have arranged to hold their annual conference and camp meeting in the city of Salem, Oregon. It will begin the 9th of June and continue to the 15th. They have obtained permission of the city authorities to occupy Marion square for their meeting. Able speakers will be present from Oakland, California.

A Good Indian.—A few days ago an Indian residing at The Dalles purchased a bottle of whisky, which he soon absorbed. Within half an hour after drinking the liquor the Indian died. Foul play is suspected and the wife of the defunct red man came down to the city yesterday evening on the boat, to have the matter investigated by the authorities.

The Coming Flood.—W S Wilmot, writing from some point up the Columbia, says: The people along the Columbia river may expect to see a higher rise in that river this summer than they have yet seen and will do well to be prepared for the sight. The snow in the mountains and the coldness of the spring indicate it.

Attached and Closed.—Yesterday afternoon, upon suit of William Reid the office and property of the *Daily Bee* was attached for debt and closed by the United States marshal, in whose possession the establishment now is. What further proceedings will be taken we are not advised.

Jurors to be Drawn.—In accordance with the order of Judge Deady in U S circuit court, the clerk, marshal and register will at 1 P. M to-morrow draw from the jury box of the U S circuit court the names of 36 persons, to appear June 22d to serve as jurors.

Second Annual Communication.—The second annual communication of the grand lodge of Odd Fellows for the jurisdiction of Washington territory will convene this morning at Vancouver. About sixteen lodges will be represented.

W P A.—The regular meeting of the Young People's Association will be held this (Tuesday) evening in the vestry of the Baptist church commencing at 8 o'clock sharp. Everybody invited to attend. Strangers made welcome.

No Quorum.—A regular meeting of the Portland board of trade was to have been held last evening, at the rooms. However no quorum was present and the board adjourned until the second Monday of June.

Master of the Pelican.—Capt Doig who was pilot of the *Great Republic* when she was lost, is now master of the old steamer *Pelican* a man-of-war on the Central American coast. She will soon come this way for repairs.

Stated Conclave.—There will be a stated conclave of Oregon commandery No 1 Knights Templar, at their asylum Masonic temple this (Tuesday) evening at 7:30 o'clock.

THE LEBANON BRANCH

The Final Survey Being Made—Work on the Road to Commence Immediately.

Last Monday John A Hurlburt, chief engineer of the O & C R R says the Albany *Democrat*, commenced work on the final survey of the road between this city and Lebanon, and will probably complete his labors by the middle of next week and then work will immediately commence on the road bed. Three hundred tons of iron for this road came up on the *Oregon* which arrived at Portland last Monday evening and it will all be laid down here by the time it is needed the first of it probably arriving this week. This will be one of the easiest roads to build in our valley as it is just a gradual ascent from here to Lebanon not a single hill or water course intervening between the two places. From the hill back of the Elkins place one mile from the city the road will run on an air line the entire distance to Lebanon. We hope the farmers along the road will be liberal with the company in granting them the right of way. The road will not be used to such a great extent as the main line running through the valley and consequently will damage them very little. Such improvements should be encouraged by all and not retarded by outrageous claims for damages.

Report of State Fair Committee on Wm. Scheffler's Wines and Brandy.

To the Board of Managers of the Oregon State Fair for the year 1879—Dear Sirs: Your committee appointed to report on the exhibit of wines and brandies, do respectfully report that they have thoroughly examined and tested the Port Sherry and Amber Wines put on exhibition by Mr Wm Scheffler, of St Helena, Napa county Cal. and that we have called in experts in aid of our judgment and would feel that we were doing Mr Scheffler great injustice did we simply report an exhibit of fine wines. The committee feel that they should go much further and say we find an exhibit of really very superior wines which we feel justified in recommending to the confidence of all who have use for wines. We have every reason to believe them pure, and we can say for ourselves that they are delicious in their flavor.

We have also tested Mr Scheffler's Sanitary (Vacuum Distilled) Grape Brandy and is pronounced by connoisseurs brought to our aid as being wonderfully smooth and inviting—and the fact that by the new process of distilling adopted by Mr Scheffler the brandy is freed from the fusil oils, is a desideratum never before attained, as we believe and should and doubtless will make Mr Scheffler the leading brandy manufacturer on this coast. We would recommend to all druggists a trial of this brandy and these wines. And your committee would recommend the award of the society, a diploma for Superior Brandy and Wines.

The Daily Oregonian.

TUESDAY MORNING, MAY 11, 1880.

THE NORTHWEST.

Eastern Washington.

D. S. Baker and other capitalists have sent agents into Spokan to buy great tracts of land.

Mrs. Bosworth, living near Goldendale, was kicked by a cow on the knee last week so seriously as to dislocate her leg.

The contract for building a court house at Walla Walla has been let to J. R. Addison for $44,240. It will be completed by Nov. 1st.

During the month of April there was coin and currency expressed from the Goldendale office of Wells, Fargo & Co. amounting to $4,628 11.

C. F. Yeaton's store, at Spokan Falls, was burglarized on the night of April 21st. About $350 in cash, $600 in sutler's checks and other articles were taken. No clue to the thief.

The time for holding the fourth quarterly meeting of the Goldendale charge of the M. church, has been changed from the 19th and 20th of June to the 27th and 28th, by order of the Rev. J. J. Whitcomb, P. E.

Brown, formerly of Salem, Oregon, who was accused of passing counterfeit money, arrested and tried last fall, and who afterwards attempted suicide, was kicked by a horse near Walla Walla last week. His injuries are serious.

The lumber interests of Klickitat county continue to increase. The sawmill known as the Presby mill, lately purchased by Thos. Johnson, and under the management of E. McLain, is running night and day, turning out 30,000 feet of lumber every twenty-four hours. Mr. Johnson's lower mill has a capacity of 10,000 feet. There are also four other mills in the county, all of which are in operation and doing a good business.

Klickitat *Sentinel*: The large stock owners, who have for years been ranging their stock in the upper portion of this county, are becoming alarmed at the rapid settlement of the county, and a number are at present engaged gathering up their stock with the intention of driving them east, and in case they cannot find a ready market at fair prices they will continue in the business in the North Platte country, which is said to be the paradise of "cattle kings."

Southern Oregon.

In Josephine county the miners are all busy and expect to do well. The crops look well and promise an excellent yield.

Josephine county correspondence: A majority of the people seem to favor annexation to Jackson county, which is being agitated. High taxes is the cause.

Farmers of Summer and Silver Lake valleys, in Lake Co., have completed sowing their grain, and that a larger acreage has been cultivated than ever before. The season is very favorable to grains and vegetables of all kinds, so far, and, doubtless, what we have lost during the severest winter for more than a decade, will happily be recovered.

Senator Lamar considers Gen. Grant's conciliatory speeches in the south sincere, but has no faith in the ability of the ex-president if re-elected, to pursue a policy different from that which the third term leaders will mark out for him, and that with any man except Tilden as a democratic candidate the ex-slave states will be solid against Grant.

The local markets are barren of anything of an important character. Financially the situation is regarded as favorable for a good, healthy trade, but the business activity which was expected does not seem to set in, although the spring season has far lapsed. Aside from continued bad weather, the decline abroad in leading products has been such as to very materially depress trade here. Wheat has during the past two months dropped about 20 per cent, and wool 40 per cent. The market for both these staples is now extremely dull, and though advices to day indicate some little improvement in wheat, the news imparts no life to the local trade, which remains in about the same condition as at the close of last week. Quotations, as far as transactions fix them, are difficult to give, the receipts of which are mostly Walla Walla, having been purchased some time ago, taken in exchange for merchandise, or on debts due to merchants, who are now moving it. Nominally choice valley wheat for milling or shipping is worth $1 50 per cental in this market. Good Walla Walla, $1 40@1 45.

The receipts of wool, considering the date in the season, are lighter than usual, the cold weather having prevented shearing when the market was inflated, and now prices have been so much depressed that growers are not pressing to sell. Quotations are not changed, 25c being the top of the market with a range down to 15c for poor grades.

Provisions generally are firm, with a moderately active local demand. Prices for choice Oregon meats show an advancing tendency. The supply is better.

Oats in fair request and the market stiff at 45c@47c per bushel for good lots.

Dairy products in ample supply to meet wants of the trade. Eggs weak at 15c per dozen.

Potatoes unchanged. Onions in demand at $2 50 @3.

New York Stock Market—A Big Day for the Bear Operators—Enormous Business.

[SPECIAL TO OREGONIAN.]

NEW YORK, May 10.—There was a more vigorous and determined bear assault on the stock market to-day than at any previous time since the current downward movement set in. Nearly all stocks were attacked more or less, but the chief demonstrations were against the Western Union, Michigan Central, Erie, the coal stocks, grangers and Pacific Mail. Business was simply enormous and declines ranged from ¼ to 7¾ per cent. Hannibal and St Joseph, coal stocks, Southwestern shares, Michigan Central, Canada Southern, Erie, Western Union, Northwestern and Pacific Mail leading the downward movement. The St. Louis and San Francisco shares broke suddenly at the close, the preferred selling down to $10. The first preferred was offered down down to $63, and common to $26. In final sales recovery of ½ to ¾ per cent from lowest point took place in some instances, although Southerns developed great weakness and the market generally was in a demoralized condition. Demoralization was said to have spread to holders throughout the country, and many orders to sell out were received by brokers. A prominent feature was a heavy selling movement in Northern Pacific shares based on unfavorable intelligence concerning prospective legislation with regard to lands of the company. In the general list of speculations before noon there were recorded enormous blocks sold for future delivery and great shrinkage in values, causing alarm among both large and small holders. To assist in demoralizing speculation various rumors were circulated and temporarily served the purpose of prominent operators engaged in breaking the market. The market yielded readily and the decline was aided by sales of long stock on steep orders and by unloading of stocks by those who had bought after the recovery of the market on Friday. The objective point appeared to be coal stocks, with which Keene is supposed to be heavily loaded, and of which the Twenty third street party is largely short. These finally broke, and fell so sharply that they appeared to have no support and in fact the whole market seemed without support until about half-past one o'clock, when prices were turned upward, but only in time to prevent the market from running into a panic. There were two or three firms on the verge of such disaster, but certain stocks, noteworthy the Erie, the Southwestern and Vanderbilt shares, were turned upward, and this movement gave steadier tone to the market for a time. Since the present decline has set in, there has been a constant feeling of the market with long stock which apparently comes out in constantly increasing quantities along with closing out of fancy stocks dividend-paying investment securities are making their appearance, very many customers of mission houses having been required to repair depleted margins. Mining shares are dull and generally heavy. The new board of directors of the Little Pittsburg Co. has been completed by the selection of Messrs. Chaffee and Moffatt, Hiland Bowerman, of Messrs. Louis Fitzgerald, J. J. McCook, J. E. Carolla and Wm. Bond. The insiders in Central Arizona are still selling, but the demand is limited and the process of unloading a slow one.

King of the Blood

Cures all Scrofulous affections and disorders resulting from Impurity of the blood. It is needless to specify all, as the sufferer can usually perceive their cause; but *Salt Rheum, Pimples, Ulcers, Tumors Goitre, Swellings, &c.*, are the most common, as well as many affections of the *Heart, Head, Liver and Stomach.*

SCROFULA.

Wonderful Cure of Blindness.

D. RANSOM, SON & CO.: For the benefit of all troubled with Scrofula or Impure Blood in their systems, I hereby recommend King of the Blood. I have been troubled with Scrofula for the past ten years, which so affected my eyes that I was completely blind for six months. I was recommended to try King of the Blood, which has proved a great blessing to me, as it has completely cured me, and I cheerfully recommend it to all troubled as I have been.

Yours truly,

MRS. S. WEATHERLOW, Sardinia, N. Y.

DR. PAUL N. BRENAN

The Most Successful Physician on the Pacific Coast,

IN THE TREATMENT OF ALL

CHRONIC AND DIFFICULT DISEASES.

DR. BRENAN WILL GUARANTEE TO CURE any form of disease of the generative organs or private disease.

He has become an expert in the treatment of disease, weakness and derangement of the reproductive organs of both male and female including diseases caused by the

FOLLIES OF YOUTH,

Such as SPERMATORRHEA, or SEMINAL WEAKNESS, or LOSS OF PERFECT VITALITY. Nearly two-thirds of all the Chronic Diseases spring, either directly or indirectly, from some derangement of the sexual system, and yet this subject is neglected by the majority of the Medical Profession.

I know that persons who are unfortunate enough to be afflicted by any form of sexual disease have a delicacy in calling upon the proper physician in time, from a sense of modesty and sometimes from ignorance, and permit those diseases to exist until their constitutions become corrupted, their organization broken down and the hope of future happiness blighted, until death becomes a welcome messenger to carry them out of their miserable existence.

Everything strictly confidential under all circumstances.

Lost manhood perfectly restored.

Catarrh, Bronchitis, Throat Diseases, Skin Diseases, Rheumatism, Kidney Complaint and all Diseases of the Eye and Ear, Stomach and Bladder, he can cure without fail.

Consultation Free, and a list of printed questions sent to those living at a distance who cannot consult him personally. Enclose postage stamp for list.

THE GENUINE

DR. C. McLANE'S

CELEBRATED

LIVER PILLS,

FOR THE CURE OF

Hepatitis, or Liver Complaint,

DYSPEPSIA AND SICK HEADACHE.

Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. C. MCLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL.

For all bilious derangements, and as a simple purgative, they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated.

Every box has a red wax seal on the lid, with the impression DR. MCLANE'S LIVER PILLS.

The genuine MCLANE'S LIVER PILLS bear the signatures of C. MCLANE and FLEMING BROS. on the wrappers.

Insist upon having the genuine DR. C. MCLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name *McLane*, spelled differently but same pronunciation.

MIDDLE AGED MEN.

There are many at the age of thirty to sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the [illegible] organs.
